FOR SCHOOLS & LEARNING CENTERS

HOLIDAY CAMP · DECEMBER & JUNE–JULY

Holiday Class at your school

A creative holiday camp right at your school or learning center. **Teachers, tools, materials and modules come from us**, so students bring nothing. The school provides the room and opens registration.

6	5 / 10	12	
camp formats	days · 1 session a day, up to 90 minutes	programs · KG–High School	Every child takes their project home

CHOOSE A CAMP FORMAT

6 formats to fit your school

1 Focus Camp

One program and one big project: robots that compete on the last day, or T-shirts students design.

BEST FOR
Students keen on one field; schools that want an impressive final result.

2 Explorer Camp

Programs are set with the school in advance; all students try a different one each day.

BEST FOR
KG–lower primary and students still finding their interest; a taster for next semester's ECAs.

3 Multi-Track Camp

2–4 programs run in parallel in separate rooms; each student picks one track at registration.

BEST FOR
Schools with many participants and varied interests.

4 Themed Camp

One theme across programs, leading to one shared creation, e.g. "City of the Future": energy (Science), vehicles (Robotic), buildings (3D), posters (Graphic Design).

BEST FOR
A closing event or a special joint project.

5 Full-Day Camp

Two sessions a day, morning and afternoon, with different programs. Times and breaks are agreed with the school.

BEST FOR
Parents who keep working during the school holidays.

6 Custom Camp

The school or learning center sets the dates, duration, hours per day, programs and number of participants.

BEST FOR
Schools and learning centers with their own calendar or needs.

Programs, sample schedule & how it works overleaf.

For families: home classes through **Light Labs**.
